### Hero's Around My School

Did you know that there are hero's everywhere you look your school? I will prove it to you. One hero for me is Mrs. Horn Because she is funny, she is kind and she is a good reader. If you want to know more read on.

One reason, Mrs. Horn is hero to me is because she s funny on time someone said, "my nose is runny" and she said, "well you better go catch it". That made me laugh. She asked my class once "what weighs more a pound of butter or a pound of feathers". I was thinking butter weighs more so the answer is butter. I guess that's what the whole class was thinking because soon everyone was saying Butter! She totally tricked us. She always mixes up table 3 and table 2. So ... she, said "what if I just switch the table labels" then she said, "no then I would just mix those up to". We all laughed

Another reason, Mrs. Horn is my Hero is because she is kind. For example, when I forget my homework or my test folder she just says, "Bring it in tomorrow". And she doesn't give to much homework. On the way to lunch she usually tells us about her lunch and lets us talk to her.

Final reason, Mrs. Horn is a hero to me is because She is a good reader. When she reads books to us the books are good but when she reads them she reads them I some way that makes them sound so much more interesting.

Now you know why I choose Mrs. Horn for my hero because she is funny, she is kind and she is a good reader.

## Ordinary Heroes In My School

Heroes don't have to be someone who saves lives or fights crime, they just have to be people who help others when they need it the most. And someone like Mrs. Siegel puts that example into place. Everyday she helps out others and shows great leadership. For example when I had a tough time listening in class she would have talks with me and help me improve my problems. She also made a class environment where people could respect each other, Mrs. Siegel has shown kindness to all and that is why she is one of my ordinary heroes.

Grade: 6<sup>th</sup>

My hero in school is my teacher ms.Hilton. Ms.Hilton is the best teacher I ever had no offense to my other teaches. Ms.Hilton is nice because she gives another chance when the whole class acts up, she also gives me something to eat when I didn't have breakfast. Also, if we have a test and we miss a day, the day we come back she will give us to 6<sup>th</sup> period to study. A nother great thing about Mrs.Hilton is that she is funny. Sometimes she can be really really funny but a lot of times she is serious. Other heroes in my school i are the aides that are in my classroom. They are really funny and they always help. These 3 people are my heroes in school.

## The Ordinary "Heroes" Of My School

Do you want to know about the greatest people in the whole school? Do you want to know who they are? Ok, the I'll tell you who they are. They are the security guards! For example, Mr. Joe is one. I picked them because they make me feel safe. They make me feel safe because they make me safe in my school. Do you know what else the security guards do for us? I know they can't fly or run super fast or be super strong, but they have a different power than we think because they have the power of safety. Security guards keep our schools safe. That is why I chose security guards as my pick.

Name: Bailey grade 2

Bailey's **100** words  
about Dr. Peterson!  
Farming Dale  
Northside

A hero is someone who makes you  
want to be a better person. In  
my opinion, Dr. Peterson is a  
Hero. When I walk down the hallway,

Dr. Peterson always makes me  
feel noticed. It is nice. Dr. Peterson  
teaches us about the school

rules. He created the five  
keys to success. The keys are  
responsibility, respect, honesty,  
and respect. By following  
these expectations you can become  
a true role model. The keys to success  
helps me to be the best person I  
can be in my life. Thank you  
Dr. Peterson for showing me how  
to be a peterson person.
