THREE IN A ROW

Italian Teachers Rosalia Mesuraca and Christine Krivicic received for three consecutive years grants from IACE (The Italian American Committee on Education), to promote the Italian language and culture. The funds are used to treat our Middle school and High School students taking Italian, to award winning interactive Italian performances from Incanto Productions. The students have been learning about the environment, the importance of world peace and "la tarantella" through the world of theater. This year the students will learn about Italy's landscape, art, technology, food, music and fashion, and the importance of preserving all the wonders that human beings have created. Our students are singing, dancing and enjoying learning the Italian language. Grazie IACE!!!
